Phase 1 subject for change

Landing Page Guidelines:

1. Design & Colors:
    - Use light blue (`#00a6d5`) as the main color for the design.
2. Navigation Bar:
    - Use the same light blue color (`#00a6d5`) as the landing page.
    - Choose a font that is easy to read.
3. Mobile Compatibility:
    - Make sure the design is responsive, so it works well on mobile phones and tablets.
4. Loading Screen:
    - Add a smooth loading animation when switching from the login page to the dashboard to improve user experience.
5. SUPREME Branding:
    - Display the SUPREME logo and name clearly on the landing page.
6. System Access (Loading Page):
    - On the loading page, hide all system codes except:
        - Partner Codes
        - Center Codes
        - MFO Codes
7. System Manual:
    - Provide a user manual for the system.

DASHBOARD GUIDELINES

General Design

- Latest data must be visible right away (at first glance).

BUFFALO-DERIVED PRODUCTS (Milk, Meat, Manure)

- Use the same format for all products (milk, meat, and manure).
- Use charts with similar colors but different shades.
- Remove percent increase — instead, export the data to Excel for manual computation.
- Percent accomplishment should be shown, but:
    - Remove the actual numbers.
    - Make the donut chart bigger and include a legend.
    - Remove targets from the dashboard, but:
        - Set annual targets via the admin account.
        - Each target should be linked to specific centers/accounts.

CHARTS SECTION

PIE / DONUT CHART

- Show latest data clearly.
- Use bigger donut charts with legends.
- No percent increase or target numbers shown here; the NHQ admin site should set the target per center

BAR & LINE GRAPHS

- Separate Milk, Meat, and Manure into individual line graphs.
- Display cumulative data for each.

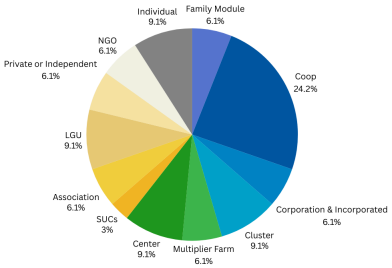

COLOR CODING GUIDE

Item	Color
Milk, Accredited, Accomplishment	Blue
Meat	Yellow
Manure	Green
Target and Total	Gray

VALUE CHAIN COLOR SCHEME

Category	Subcategory	Color
Production/RSBSA		Blue & Gray
Sex	Male	Blue
	Female	Gray
Age	Senior	Blue
	Adult	Green
	Youth	Gray
Farm		Blue & Gray
Processing		Blue & Gray
Consolidation		Design from previous submitted design
Marketing		Blue & Gray

PARTNER TYPE *(see figure for reference)*

ACCREDITATION

Font Color - Blue (Accreditation, FFEDIS, CSO)
Figure - Yellow

PSA Section Instructions

- Remove the PSA section from the system since it only contains a PDF file. Instead, create an additional tab labeled "PCC Admin Data" specifically for storing and managing PSA-related data.

MAP TAB

- Change the current map tab to an original map of the Philippines. This map will serve as the main access point for all PCC-related data (by region, province, or project).

SUSTAINABILITY (remain as dashboard part)

UPDATES - change term to UPDATE REPORT

Instruction: Arrange the IH and CBED Data Display

1. Main Selection:

- Radio Button / Toggle:
    - IH
    - CBED (if selected, show the following:)

2. CBED View Components:

a. List of Cooperatives

- Display a list of coops under CBED

b. Data Categories for Each Coop:

For each cooperative, display three categories with the same data format:

- Milk
- Meat
- Manure

Each category should include:

- Volume
- Value

3. Farmer Records:

a. Dropdown List:

- List farmers who are members of a selected cooperative

b. Arrangement:

- Organize farmer records based on Partner Type

c. Filter:

- Add a Filter by Partner Type dropdown or multi-select filter

PROGRAMS - change term to PROFILE

1. Center -once you click the Center, it will directly show the profile of the center such as production or IH, consolidation, marketing and processing.
2. CBED - once you click the CBED list of coops will appear, if you click the coop it will directly show the profile of the coop such as production or IH, consolidation, marketing and processing.

REGISTRY - change term to REPORTS
NOTE: Input view before export to Excel

1. Volume Production with nested Milk, Meat, Manure, All
    - Filter 1 : Annual, Monthly, Quarterly, Semi Annual

- Filter 2 (Location): Center (if NHQ account) Region, Province, District, Municipality
- Filter 3 (coverage) :
- Filter 4: Partner Type

2. Value Production with nested Milk, Meat, Manure, All
    - Filter 1 : Annual, Monthly, Quarterly, Semi Annual
    - Filter 2 (Location): Center (if NHQ account) Region, Province, District, Municipality
    - Filter 3 (coverage)
    - Filter 4 :Partner Type

    2.1 VALUE OF MILK
    - Filter 4 : Source of Sales (dairy Box, Raw Milk, MFP, Value added)
3. Milk Feeding Program
    - Filter 1 : Fund Source (DepED or DSWD)
    - Filter 2 : Fiscal Year
    - Filter 3: (Location): Region, Province, District, Municipality
    - Filter 4 :Partner Type
    - Filter 5: Type of Milk (Pasteurized, Sterilized)
    - Filter 6: Mode of procurement
4. Partner Directory
    - Filter 1 : Status (Active, Inactive)
    - Filter 2: Partner type
    - Filter 3: Value Chain task (Producer, consolidator, processor, marketing)
    - Filter 4 (Location): Center (if NHQ account) Region, Province, District, Municipality
    - Filter 5 (coverage)
    - Filter 6: Accreditation (CSO, FFEDIS, FDA-LTO, NDA-LTO)
    - Filter 7: Project (CBED, CBIN with year, CCDP, MFP, CHB, PL480, Others)

5. Market Outlet
    - Filter 1: Category (Dairy Box, non-Dairy Box)
    - Filter 2 (Location): Center (if NHQ account) Region, Province, District, Municipality
    - Filter 3 : Status (Operational, Completed, on-going, stopped)
    - Filter 4: Project (CBED, CBIN with year, CCDP, MFP, CHB, PL480, Others)

6. Farmer
    - Filter 1: Status (Active, Inactive)
    - Filter 2: Partner type (coop, association, independent)
    - Filter 3: Value Chain task (Producer, consolidator, processor, marketing)
    - Filter 4 (Location):Center (if NHQ account) Region, Province, District, Municipality
    - Filter 5 (coverage)
    - Filter 6: Accreditation (FFEDIS, FDA-LTO, NDA-LTO, RSBSA)

- Filter 7: Project (CBED, CBIN with year, CCDP, MFP, CHB, PL480, Others)
- Filter 8: Sex (male, female)
- Filter 9: Age Group (Senior Citizen, Adult, Youth)

7. Services
    - Filter 1: Category (CBED Related ESETS, Market Development Services)
    - Filter 2: Center (if NHQ Account) Region, Province, District, Municipality
    - Filter 3: Under ESETS (CBED-CDP Orientation, Organizational Management (Coop/Assoc Management Training), Organizational Enterprise Capacity Building (Business Related), Milk Handling and Control Processing, Product Processing, Meeting w/ Partners)
    - Filter 4: Under MDS (Supplies/Equipment/facilities/outlet Provision, Marketing Services Provision, Financial Services Provision, FDA-LTO/NDA-LTO Application)

ENGAGE

1. category group - change term to PARTNER TYPE (see previous list, ensure complete dropdown list)
2. Service name - change to MFO Code and hide all the AUTO CODES;
3. Project category - change term to PROJECT; add dropdown (CBED, MFP,CHB, EPAHP, PL480, CBIN 2019, CBIN 2020, CBIN 2021,CBIN 2022, CBIN 2023, CBIN 2024 and others specify set up:)
4. Date of service change to date conducted (from - to range)
5. MFO CODE, MFO Title, Service Type, Project involvement, Year and Month, client count, duration of activity, purpose, client category, date conducted - **remove**
6. Participant Designation (Dropdown: Chairman, Manager, BOD, Treasurer, Secretary, Bookkeeper, Member, others specify)
7. Date conducted (from - to calendar)
8. Training title - change to ACTIVITY TITLE
9. Material Type change to - Activity mode and include dropdown (Virtual, face to face and Hybrid)
10. 4P's, IP's - additional
11. Name of client - include add button and designation
12. Include dropdown list in Service Name and automated service code
13. MFO Code must be based on the PCC MFO Dashboard

Monitoring and evaluation change term to MOA and other contract Execution
*content is for Phase 2
